Purpose and Scope

To outline in a clear and unambiguous manner the roles and responsibilities of Tipperary County Council and Tipperary Public Participation Network and Tipperary CLG with regard to the delivery of the PPN Programme as laid down by the Department of Environment, Community and Local Government.

Context

A framework for public engagement and participation, to be called "The Public Participation Network (PPN)" was developed within each local authority area (engaging in and within municipal districts and at the County level) to enable the public to take an active formal role in the policy making and oversight activities of the Local Authority's areas of responsibility. The PPN will be the main link through which the local authority connects with the community, voluntary and environmental sectors without prejudice to other consultation processes.

The aim of the structures and processes is to facilitate and enable the public and the organisations to articulate a diverse range of views and interests within the local government system, not to reduce or homogenise this diversity. A parallel and equally important aim should be to facilitate the local authority in making better and timelier decisions.

Members of the local community interact with local government at different levels. The PPN facilitates input by the public into local government through a structure that ensures public participation and representation on decision-making committees within local government.

The Network is expected to perform its functions following core principles to facilitate active participation with decision making bodies as identified earlier i.e. participation, inclusivity, trust, accountability, transparency, independence and valuing diversity.

- Facilitates the **participation** and representation of communities in a fair, equitable and transparent manner through the environmental, social inclusion & voluntary sectors on decision making bodies
- Strengthens the **capacity** of communities and of the environmental, social inclusion & voluntary groups to contribute positively to the communities in which they reside/participate
- Provides **information** relevant to the environmental, social inclusion & voluntary sector and acts as a hub around which information is distributed and received.

In particular, the role of the Tipperary PPN is:

1. to contribute to the local authority's development for the County a vision for the well-being of this and future generations.
2. to facilitate opportunities for networking, communication and the sharing of information between environmental, social inclusion and community and voluntary groups and between these groups and the local authority.
3. to identify issues of collective concern and work to influence policy locally in relation to these issues.
4. to actively support inclusion of socially excluded groups, communities experiencing high levels of deprivation, poverty, communities experiencing discrimination, including Travellers to enable them to participate at local and county level and to clearly demonstrate same.
5. to encourage and enable public participation in local decision making and planning of services.
6. to facilitate the selection of participants from the environmental, social inclusion and voluntary sectors onto county decision making bodies.
7. to support a process that will feed the broad range of ideas, experience, suggestions and proposals of the Network into policies and plans being developed by agencies and decision makers in areas that are of interest and relevant to the Network
8. to work to develop the Environmental, Community and Voluntary sectors so that the work of the sectors is clearly recognised and acknowledged and the sectors have a strong collective voice within the County.
9. to support the development of resilient communities so that they have the capacity and ability to input into the PPN and other decision making structures of local government.
10. to support the individual members of the Public Participation Network so that:
 - They can develop their capacity and do their work more effectively.
 - They can participate effectively in the Public Participation Network activities.
 - They are included and their voices and concerns are heard.

Other Financing Arrangements

If the PPN requires to access loans to undertake any activity. It is good practice that the Council is made aware of this – however the Council cannot act as guarantor for same (no longer allowed by the Department) so it would be important that the PPN have a very strong case on which to do this and are satisfied that they have the facility to pay it back. The Council could not and will not take on its repayment if the PPN failed to make payments.

TCC will strive to partner with PPN on an annual basis to access additional funding to deliver objectives to enhance participation, capacity and information for the community sector.
